

# GRAVESITE RE-OPENS & MEMORIAL REMOVAL

We have recently expanded our team and invested in additional lifting equipment to enable fast, efficient gravesite re-opens and memorial removal across WA.

## Immediate Quotes and Site Inspections

Contact us to undertake an immediate site inspection to check the scope of your required works and provide a quotation (usually on the same day as your request).

## Rapid Mobilisation to Site Following Approval

Our new resources and equipment means we can be onsite rapidly - you can make the necessary funeral arrangements without delay.

## The Most Experienced Team in WA - MCB Licensed

Our re-opens team has decades of experience in the industry in Western Australia and will undertake the works efficiently, carefully and with a minimum of fuss.

## Heavy Duty Equipment for Every Type of Removal and Re-Open

Our heavy-duty lifting and earthmoving equipment means we can handle re-opens of any size, big or small - at short notice. We also can complete additional memorial inscriptions as required.
