Fully Licensed with the Metropolitan Cemeteries Board

Perth Memorials is fully licensed with the Metropolitan Cemeteries Board. With over 45 years' combined experience, we have installed thousands of memorials of all types and sizes in cemeteries across Western Australia.

Premium Quality Stone and Accessories

We source the best quality stone and import the finest Italian Caggiati accessories to complement our designs.

Inscriptions in any Language or Character Set

Memorials can be inscribed in any language or character set - English, Italian, Persian, Portuguese, Greek, Arabic, Chinese, Japanese, Eastern European, Croatian, Serbian, Malay, Russian, Hebrew, or any other.

Using advanced design and inscription technology, we often incorporate a wide array of graphics onto memorials - crosses, flowers, roses, soccer balls, cars, fishing rods, motorcycles, sporting logos, flags, trees - anything that may be meaningful for you.

We Don't Count Letters or Characters for Inscriptions - It's Included

When undertaking inscriptions, we don't charge by the letter or character. Included in our price, you can choose the exact inscription that you want, with as many words, characters or graphics you wish.

We believe it is more important for you to get exactly what you want, rather than worrying about the additional cost of adding a few words or characters.

Family Run West Australian Business

We are a family-run, West Australian business striving for complete satisfaction by looking after our clients from the beginning of the process through to the installation of the memorial. We only produce a limited amount of memorials each month to ensure quality and personalised service.

Obligation Free Home Visits

We are happy to visit you in the comfort of your home (at any convenient time) to walk you through the decision making process - we will show you our many designs and provide the best advice for the creation of the perfect memorial.

Remember, if you see a memorial you like, please photograph it and send it to us - we can make it for you.
